

Bridges to Birding Educator Workshop

Incorporating birds and birding into your curriculum is a fun and easy way to meet multiple state education standards in math, science, language arts, P.E. social studies, and art. Not to mention... it's fun!!

This workshop will focus on getting outside and looking for birds, tracking bird sightings, and incorporating sightings into classroom activities.

Following the workshop, educators will be able to check-out binocular kits to use in their school.

Friday, August 3, 2012
9am - 3pm
Ak-Sar-Ben Aquarium
Gretna, NE
